**REMARKS**

Claims 1-14, 51 and 52 remain in the application. Reconsideration of this application is respectfully requested in light of the remarks presented herewith.

Claims 1-14, and 51-52 are rejected under 35 U.S.C. 102(e) as being anticipated by Yamada, et al. (hereinafter referred to as Yamada). Applicants traverse these rejections. The Examiner acknowledged in the Office Action Summary of the Office Action mailed June 28, 2005 that all copies of the certified copies of the priority documents related to the present application have been received from the International Bureau. In accordance with the priority documents, Applicants claim a priority date of July 19, 2000, which is both before the U.S. filing date of Yamada and before the claimed priority date of Yamada. Thus proving that they are entitled to a priority date earlier than Yamada's U.S. filing date, The Examiner should remove the rejections based on Yamada in accordance with MPEP §2136.03.

For these reasons, Applicants assert that the claims in the present application, Claims 1-14, 51 and 52, are in proper form for allowance and an early notice of allowance is respectfully requested. In the event that the Examiner deems the present application non-allowable, it is requested that the Examiner telephone the Applicant's attorney or agent at the number indicated below so that the prosecution of the present case may be advanced by the clarification of any continuing rejection.

No amendment made was related to the statutory requirements of patentability unless expressly stated herein. No amendment made was for the purpose of narrowing the scope of any claim, unless Applicant has argued herein that such amendment was made to distinguish over a particular reference or combination of references.
